Child Welfare

Children are born to live their lives to the fullest. However, their fate is not in their own hands. In a city as prosperous as Hong Kong, there are 332,000 children and youngsters living in poverty. Many of these youngsters have not been identified and are forgotten. CHANGING YOUNG LIVES FOUNDATION is supporting such children. Committee Members have already visited the place once and was in awe of how they run the place. Representatives from the foundation will be coming to the event, they will answer all questions of donators. You can even visit the site before donating.
